# PRIMUS NEWSLETTER

## COVID-19 and PRIMUS ACTION PLAN

### Recruitment Advice

PRIMUS will be guided by GP Practice activity.

We understand that practices may have decided to suspend all research related activity (if they haven't done so already) and are moving to telephone triage appointments only.

For those who are continuing to screen/confirm eligibility of patients and/or have already passed on eligibility information to nurses - Study Visit Part A can take place remotely.

Please ensure patients are happy to be enrolled and are aware that ***no urodynamic clinics are taking place at the moment.***

- Informed consent to be discussed over the telephone and each statement on the consent form read out
- TRIPLICATE CONSENT FORM sent to the patient with a stamped, pre-addressed return envelope for patient to initial, sign and post back
- Once consent form received, remaining data in Study Visit Part A collected over the telephone.
- Bladder diary sent to patient, this will be kept until they attend a urodynamic clinic visit.

### Urodynamic Clinics

Urodynamic nurses have been advised to inform patients via letter/telephone that ALL urodynamic clinics will be postponed until the situation settles/resolves.

### SAE Reporting

Patients who are already on the study may experience **unrelated SAEs due to being hospitalised**. If you become AWARE, or are MADE AWARE of an SAE (patient on the study hospitalised for whatever reason), then please report using the SAE Report Form or call the study manager to discuss this.

You may not be made aware of an SAE until after the SAE has resolved, this is absolutely okay, you just need to report it as soon as you are made aware of it.

THE PRIMUS TEAM ARE NOW WORKING REMOTELY BUT HAVE FULL ACCESS TO EMAILS. YOU CAN CONTACT US ON PRIMUS@CARDIFF.AC.UK.

This study was funded by the NIHR HTA Programme 15-40-05. The views expressed are those of the author(s) and not necessarily those of the NHS, the NIHR or the Department of Health.
